GOOGLE TEMPLATES

While scouring Twitter for some fresh ideas for everyone, I stumbled across, "Templates for Teachers." It is a website FULL of templates that you can take and use in Google Docs. It is not a fancy looking website but it has a lot to offer! templatesforteachers.com

Finding this led me to performing a bigger search for FREE Google templates.

- Hello Teacher Lady (helloteacherlady.com/templates) has some great ones including choice boards and agendas.
- We Are Teachers (see photos to left) also has some neat templates. (<https://www.weareteachers.com/free-google-slides-templates/>)

PDF HACK TO REDUCE COMPLAINTS IN CLASS

This hack is an oldie but goodie!

Do you have a 234 page PDF and need a single page, or range of pages you need to pull out?

I found this handy when I had a PDF of a vocabulary book and needed the students to have a few pages out of the middle. SURE, you can assign them the whole thing and have them scroll forever and then you have to answer 5,349 questions, OR do this.

1. Download PDF
2. Open PDF
3. Figure out what pages you need
4. click *ctrl + p* (at the same time) (or click print)
5. Change your printer to "Save as PDF"
6. Under "Pages" type in the page number or range you need.
7. Click "Save"
8. Name it whatever you wish!

These directions are done on a Dell laptop running Windows 11. So if you are on a different computer, and having problems, let me know and we can get you the correct directions! Please note, some people/companies LOCK their PDFs to try to prevent this from happening, so if it says "not allowed" you did not do anything wrong and you just can't use this hack. In the years I've been doing this I have only had 2-3 like this, so it is not common.

USING CANVA IN CLASS

I know I talked about Canva a little bit last time, but I keep using it and keep getting more and more impressed with it! Here you will find some tips on how to use it in the classroom.

- Projects - I spent about 15 minutes creating my 45 second video about myself on it. You can create one for yourself and have your students make them!
- Spice up your Google Classroom Headers with custom ones!
- Lesson Plan Templates - Some of you may disagree, but I always feel better when my lesson plans are pretty.
- WORKSHEETS - There is a section in Canva dedicated to worksheets. That are FREE and you can edit them.

I could go on and on with the lists of things: certificates, graphic organizers, Invitations, etc... Just please go and check it out. I really think it is a game changer. If you see anything on there you would like me to dive deeper into, let me know!

UNDO SEND

Have you ever accidentally sent an email and were not finished? Or realized a typo RIGHT after you sent it? Forgot an attachment? Now you can save yourself (within 30 seconds).

In Settings -> General there is an "Undo Send" option that you can set for up to 30 seconds. That may not seem like a long time, but those of us that have sent an email with issues will tell you that you usually will catch them faster than that.

USD 413 APP

Here is my shameless plug to have you go and download the USD 413 app! It has all of the same information as our website, in a friendly mobile format! It is available for iPhone and Android!

You can find it in either app store by searching "Chanute Public Schools".

Once you have it downloaded, you can set the notifications on/off for each building so you are only getting the information that you want.
